

Workshop on Control, Probability and Statistics

(Venue: Room 703, The School of Mathematical Sciences)

April 12 (Friday)		
14:00-14:05	Opening Remarks (Congming Li, Dean)	Chair: Dongmei Xiao
14:05-14:35	Robust algorithms for solving inverse problems of control theory (Alexander V. ILIN, Moscow State University)	
14:35-15:05	Multiagent Systems Consensus (Vasily V. FOMICHEV, Moscow State University)	
15:05-15:35	Switchable systems stabilization methods (Andrei S. FURSOV, Moscow State University)	
15:35-15:55	Tea Break	
15:55-16:25	From asymptotic normality to heavy-tailedness via limit theorems for random sums and statistics with random sample sizes (Victor Yu. KOROLEV, Moscow State University)	
16:25-16:55	Convergence rate estimates in the central limit theorem for sums of independent random variables (Irina G. SHEVTSOVA, Moscow State University)	
April 13 (Saturday)		
9:00-9:30	Topics in matrix completion (Xiaojun Mao, Fudan University)	Chair: Weidong Liu
9:30-10:00	浅谈苏俄的数学 (Mingkang Ni, East China Normal University)	
10:00-10:10	Tea Break	
10:10-11:00	Discussion	
11:00-13:00	Lunch	
14:00-16:00	Discussion
